

SLIDE®

SLIDE®

2011

Fare luce non basta, perchè la luce può cambiare l'identità degli spazi aperti e chiusi dell'abitare. Un uso sapiente della luce emoziona, declina più valenze del sentire e poi la luce comunica perchè favorisce il dialogo e trasmette positività. Ecco perchè tutti i prodotti SLIDE si possono illuminare. Cablaggi minimi, facilità d'installazione, semplicità progettuale per una vasta gamma di funzioni, materiale plastico leggero e robusto, forme essenziali che non si prendono sul serio e tanto, tanto colore: queste le linee guida per una luce che sa creare atmosfere con gli oggetti luminosi di SLIDE.

Lighting alone is not enough, because light can totally change the feel of the spaces in which we live. Enlightened use of light brings on emotions, sharpens the senses and aids communication as it favours dialogue with its positive ambiance. This is why all the SLIDE products are also light sources. An absolute minimum of wiring, simple to install, of clean and versatile design with a myriad applications, in plastic materials which are both light and robust, basic forms which do not take themselves too seriously and lots, lots of colour; these are the guidelines SLIDE has chosen so as to create a special atmosphere with its lighting creations.

La lumière, tout simplement, ne suffit pas. La lumière peut changer l'identité des espaces ouverts et clos de l'habitat. Un éclairage savant est source d'émotion, il favorise la communication. Voilà pourquoi tous les produits SLIDE s'allument. Câblage minimal, facilité d'installation, des projets simples pour des fonctions variées, du matériel plastique léger et solide, des formes essentielles qui ne se prennent pas au sérieux et beaucoup de couleur: ce sont-là nos critères pour une lumière évocatrice d'atmosphères les objets lumineux SLIDE.

Beleuchtung alleine reicht nicht aus – Licht kann die Räume, in denen wir leben komplett verändern. Der erleuchtende Einsatz von Licht bringt Emotionen mit sich, schärft die Sinne und verbindet, weil er mit seinem positiven Ambiente den Dialog fördert. Aus diesem Grund sind alle SLIDE Produkte auch Lichtquellen. Ein Minimum an Verkabelung, einfach zu installieren, in unbeschränktem und vielfältigem Design mit unzähligen Einsatzmöglichkeiten. Kunststoff der gleichermaßen leicht und dennoch robust ist, elementare Formen, die sich nicht zu ernst nehmen sowie viele, viele Farben; das sind die Richtlinien die SLIDE gewählt hat, um eine ganz spezielle Atmosphäre mit seinen Lichtkreationen zu erschaffen.

FESTIVAL INTERNAZIONALE DELLA LUCE DI MILANO 2010

Il Festival Internazionale della Luce di Milano 2010 è un evento che si svolge in un luogo storico e prestigioso, dove la luce si fonde con l'architettura e l'arte. L'evento è organizzato da una commissione di esperti e artisti, e ha l'obiettivo di promuovere la cultura della luce e dell'illuminazione in Italia e nel mondo. Il festival è aperto a tutti e si svolge in un ambiente accogliente e confortevole, dove si possono gustare i prodotti tipici della cucina italiana e internazionale. Per informazioni e biglietti, visitate il sito www.festivaldellaluce.it.

General products features

Material: Linear low-density polyethylene - LLDPE

Production process: Rotational moulding

Resistant to extreme temperatures (-60°C to +80°C)

UV resistant

All our products are 100% recyclable, furthermore grey and black colours are produced with recycled polyethylene. SLIDE production has a closed production cycle with no health prejudicial emissions and complying with eco-sostenibility rules.

Technical key

Class 1: appliance fitted with basic insulation throughout and with accessible live parts connected to a supplementary safety circuit (ground).

Class 2: appliance fitted with double insulation or reinforced with insulation without ground connection.

Certifies the conformity of the product to the European community instructions.

The upper part of the appliance may come into contact with normally inflammable surfaces. If this symbol is not shown, the upper part of the appliance must be installed not less than 25 mm from any normally inflammable materials.

Lamps with this symbol are only suitable for internal use.

Lamps with this symbol are only suitable for internal and external use.

Lamps with this symbol are suitable for floatation.

N.B. All the wattages reported in the catalogue are recommended
All IP20 products are equipped with transparent electric cable
All IP55 products are equipped with black electric cable
